Mumbai.

Subject: Increase in sales tax on Dental Products

Respected Sir,

On behalf of nearly 2000 dentists and other numerous undergraduate and postgraduate students members of our association in Mumbai, it is my sincere appeal to you for kindly continue sales tax at the previous rate that is 4% instead of 13% which would be applicable from current year. Best of our information this is the highest rate of tax applicable to other states.

Reduction of taxes would greatly help the dental community to offer dental services to the masses at a more affordable rate.

Hoping for a favourable response, Thanking you in anticipation.
